

Moodlebar 2.0

Easy socialmedia and shortcuts Moodle integration

ThalpnTia

Social & Quick MoodleBar

- Bar containing social links and quick menu for students with smooth jquery effects
- Works on Moodle 2.0, full browser compatible

***** How To Install it:

- Download and unzip thalentia_moodlebar.zip in layout directory, located inside your theme folder.
- Add the following code to your all of PHP files located in your layout directory just before the close body tag </body>.

```
<?php include('thalentia_moodlebar/thalentia_moodlebar.php'); ?>
```

- Save the files.
- Go to any of your moodle's pages.
- You will see thalentia_moodlebar on the footer's page

Configuration:

- Social Links Configuration:
 - (1): Change the links to your social pages
 - (2): Change the name to display on the link
- Quick Menu Icons:
 - (3): Discomment deleting the two bars //
 - Replace qm_image.png with your image name
 - The size of icons is 17px X 17px

```
<a class="google" href="https://plus.google.com/116667713372474941177/" target="_blank"></a>
   <div id="tipgoogle" class="tip">
    <u1>
     \landsp;  Seguirnos en Google+
    </div>
  </1i>
<div class="rightside">
<span class="downarr"><a href="#"></a></span>
<span class="menu_title"><a class="menutit" href="#">quick menu</a></span>
 <div class="quickmenu">
  <u1>
   <1i>>
     <?php //e
     <?php echo '<a target="_top" href="'.$CFG->wwwroot.'"/>'; ?> - Mis Cursos</a>
```
